### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 14 November 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Response to Amendment*

This office Action is responsive to the Amendment After Non-Final Rejection filed 11/14/2006. Claims 14, 19, 30, 32, 33, and 35 have been amended. Claims 1-64 are pending.

### *Response to Arguments*

Applicant's arguments with respect to claims 1-35 have been considered but are moot in view of the supplemental election requirement presented below. The indication of previous allowable subject matter is withdrawn after further consideration by the Examiner in view of the supplemental election of species requirement. The previous restriction requirement is maintained.

### *Supplemental Election/Restrictions*

After further consideration by the Examiner, withdrawn Group II, claims 36-41 will be rejoined with elected claims 1-35 of Group I for examination in the next Office Action.

With respect to Groups I and II, this application contains claims directed to the following patentably distinct species:

#### **I. Election of species is to be made for the type of electrolyte:**

The species are solid oxide electrolyte and proton-exchange membrane electrolyte.

#### **II. Election of species is to be made for the method of forming the chamber:**

**The species are:**

- a) forming the chamber comprising the substeps of (claim 7)
  - i) depositing a layer of sacrificial material
  - ii) patterning the sacrificial
  - iii) covering the sacrificial material with a suitable material to form a chamber roof
  - iv) removing the sacrificial material;
- b) forming the chamber comprising the substeps of (claim 11);
  - i) forming a porous electrode
  - ii) covering the porous electrode with a suitable material to form a chamber roof
- c) forming the chamber by the substeps of (claim 14).
  - i) depositing and patterning a planar film of an oxidizable material
  - ii) oxidizing the oxidizable material to form a chamber roof
- d) forming the chamber comprising the step of tape casting the electrolyte (claims 18 and 19).

**III. Election of species is to be made for the material for the chamber:**

The species are electrolyte and nonelectrolyte.

**IV. Election of species is to be made for the solvent if applicant elects species d) in category II above.**

The species for the solvent are: isopropyl alcohol, water, ethyl alcohol, methyl alcohol, methyl ethyl ketone.

The species are independent or distinct because they are mutually exclusive and do not overlap in scope.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.  
MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
